

OliveEssence

Product Features and Benefits

OliveEssence Hand & Body Lotion

An all-in-one ultra-moisturizing, ultra-hydrating, and self-adjusting moisturizer! This stimulating formula replenishes essential moisture for dry and mature skin types. Enriched with an herbal blend, this intensive formulation penetrates skin to provide conditioning and ultra-moisturizing benefits. Your skin will appear more youthful and healthful and feel soft and luxurious. Botanical ingredients include: Lavender, Chamomile, Alfalfa Root, Clover Flower, Orange Flower, Peppermint Leaf & Passion Flower. Recommended for all skin types.

Olive Oil Base: Smooths rough dry skin and over time, makes the skin look younger. We use olive oil because it has a structure that is quite similar to that of our skin fat. For this reason, it is easily absorbed and blends effortlessly with the hydrolipid mantel - the surface of the skin. It penetrates deep into the skin and delivers moisture into the recesses of the cells ridding the unpleasant sensation of tautness, dehydration, and irritation while preventing the formation of premature lines and wrinkles.

Chamomile: Strengthens tissues and cells. Chamomile is well-recognized for its anti-inflammatory properties. It helps reduce puffiness and encourages cleansing of pores.

Herbal Blend: Blend of herbs that contain antioxidants and vitamins to soothe, refresh, and protect skin tissue. These vital plant extracts help maintain beautiful, nourished, healthy-looking skin. This complex of plant extracts has long been known for its hydrating, nourishing, and revitalizing properties.

Lavender: Soothes and calms irritated skin. Lavender flowers have properties that soothe skin and help to fight infections and clear pores.
