SECTION 9 – Physical and Chemical Properties

Appearance – Liquid of various colors	Upper/lower flammability – N/A
Odor – N/A	Vapor pressure – N/A
Odor threshold – N/A	Vapor density – N/A
PH – N/A	Relative density – N/A
Melting point/freezing point – N/A	Solubility – Mild Solvents
Initial boiling point and boiling range - >100°(F)	Partition coefficient – N/A
Flash point – 153°(F) -TOC	Auto-ignition temperature – N/A
Evaporation rate – N/A	Decomposition temperature – N/A
Flammability – N/A	Viscosity – N/A

SECTION 10 – Stability and Reactivity

Stability – This product is stable under normal conditions.

Reactivity – This product is not reactive under normal conditions.

Other – There is no other recommendations for this product under normal conditions.

SECTION 11 – Toxicological Information

This is a cosmetic product that is safe for consumers under intended use and normal conditions. There are no toxicological or health effects expected.

SECTION 16 – Other Information

This MSDS was revised August 2024. It has been updated from the previous version to the most current OSHA regulations. (HCS) (29 CFR 1910.1200(g)) Appendix D
